Residency Procedures

1. Status of Residence

All foreign nationals who study at Japanese universities (including graduate schools) or other educational institutions are required to obtain “Student” status.

If you have a different status at the time of enrollment at Nara Women’s University, you must contact the International Students Section of the International Division, as you need to change it to “Student” status at the Regional Immigration Bureau as soon as possible.

Please notify the International Students Section of the International Division as soon as you change the status of your residence card.

2. Procedures of Residency Management

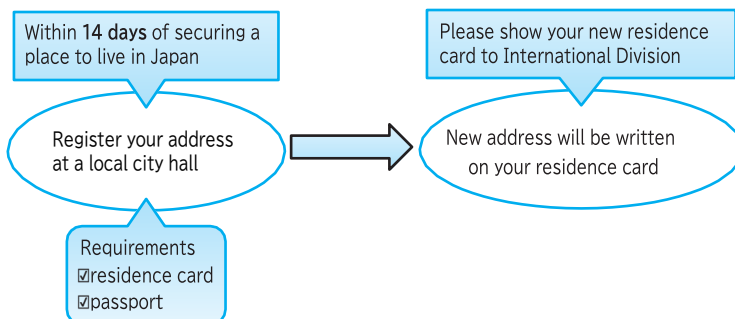

When international students with “Student” status enter Japan, they will receive “residence card” at passport control at an airport.

Their resident status can be revoked if they do not commit themselves to activities relevant to their status for more than three months without a valid reason.

(1) New students

You must register your address at a local city hall with your residence card within 14 days of securing a place to live in Japan. The address will be written on your residence card accordingly.

After you have completed the registration of your address, you will receive “My Number” of 12 digits and that is allocated to you. Then a small piece of paper with your number will be posted to you by registered mail. Make sure to keep it safe and do not disclose it to anyone as it may lead to abuse and misuse of personal information. Students who have requested to have your “My Number Card” issued must return your “My Number Card” and “National Health Insurance card” before leaving Japan.

(2) Moving in / out

When you move house, you must submit the notification for moving out with your residence card to the local city hall of your previous residence to receive “Certificate of moving out”. Next, take the similar procedure for moving in with the certificate and your residence card to the local city hall of your new residence within 14 days of moving into the new residence. Regarding the procedure of moving house, please check [Page19](#).

<Before moving>

Receive “[Certificate of moving out](#)” at the local city hall of your previous residence.

<After moving>

Within 14 days of moving into the new residence, take the procedure for moving in at the local city hall of your new residence.

6. Work Permit for Part-time Jobs

Since your status of residence is “Student”, you are not permitted to work or receive monetary compensation. However, students who are under extenuating circumstances will be able to obtain a work permit that allows them to engage in a part-time job. **Note that those who work without work permit will be imposed or deported from Japan.**

- How to apply for work permit

1. Receive application documents at the International Division.

2. Fill in the documents, and submit them to the International Division. They will check them for you.

3. Visit the Immigration Office with the documents. When you get the permit, you will see “work permit” stamp on the back of your residence card.

With work permit, you can engage in a part-time job up to 28 hours per week.

Note that during long holidays, you can work up to 8 hours per day and 40 hours per week.

NB

*Permission rules require that you should place high priority on your study and research while engaging a part-time job.

*Do not engage yourself in jobs such as doing dishes or cleaning in working places related to entertainment and amusement industries (e.g. establishments such as bars, cabarets, pachinko parlors or mah-jongg clubs).

*You are not allowed to work during a long term absence from the university.

If you have any worries or concerns regarding your part-time job, please consult your academic advisor or the staff at the International Division. You are required to submit “Report on Part-time Jobs(see [page.10](#))” when you get a part-time job.

7. Family Members’ Coming to Live in Japan

Concerning visas for your family, they can apply at the Japanese Embassy in your home country. You should prepare for their applications by yourself.

8. Leave of Absence/Dropout/Expelled from the University

If international students with “Student” status take a leave of absence or leave NWU, they can not reside in Japan. **They must apply for appropriate residence status, or leave Japan immediately.**
